Education

VIT Bhopal University, B.Tech in Computer Science and Engineering, Bhopal, Madhya Pradesh

- CGPA: 8.78 / 10

Experience

Google Developers - SmartBridge | Credit Course in Generative AI

May 2025 – June 2025

Mastered core LLM concepts & gained hands-on experience with Google Cloud's Vertex AI platform

Projects

Internship Project

Designed and implemented an **Image Captioning Generator** by applying generative AI techniques, prompt engineering, and fine-tuning to produce accurate, contextual descriptions for images.

Face Recognition Based Attendance System

- Built face recognition system using OpenCV and deep learning models.
- Implemented anti-spoofing measures and optimized for varying lighting conditions.
- Designed database storage with CSV export functionality and cloud integration.

AgriScan: Drone based autonomous crop monitoring system

Built *AgriScan*, a deep learning web app that detects 57 plant diseases across 14 crops using MobileNetV2 (84.6% accuracy) with live weather-based disease risk forecasting and multi-field management dashboard. [github repo](#)

Technical Skills

Languages: Python, Java, C++, SQL, HTML, CSS

Developer Tools: VS Code, LeetCode, github

Extra-Curricular

- **Presentation:** Presented on public health and got selected among various university students in inter-university presentation.
- **Designing:** Designed posters for events.
- **Writing:** Featured in an anthology by Writer's Pocket.
- **Student Coordinator, Gujarati Club:** Organizing and managing events as a current student coordinator.
