PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate with a strong academic record (CGPA 8.97/10) and hands-on experience in **Generative AI, computer vision, and full-stack development**. Certified by NPTEL (Top 5%), Google Cloud, and Microsoft Azure. Built production-grade AI systems including a multi-crop disease detection platform achieving **84.6% accuracy** and a realtime face recognition attendance system. Passionate about leveraging LLMs and cloud-native AI to solve real-world problems at scale.

EDUCATION

VIT Bhopal University

2023 – 2027

B.Tech in Computer Science and Engineering | Bhopal, MP

■ CGPA: **8.97 / 10** — Consistently in top academic cohort

CERTIFICATIONS & ACHIEVEMENTS

NPTEL – Marketing Analytics

IIT / NPTEL · National Programme on Technology Enhanced Learning

■ **TOP 5% NATIONAL TOPPER** [NPTELCertificate](#)

Score: 97/100 — Ranked in the elite top 5 percentile among thousands of participants across India.

Google Cloud – Generative AI Fundamentals

Google Cloud · Delivered via SmartBridge

■ **GOOGLE CLOUD CERTIFIED** [smartbridgecertificate](#)

Score: 95.8/100 — Covered Vertex AI, prompt engineering, LLM fine-tuning, and responsible AI practices.

Microsoft Azure – Data Fundamentals (DP-900)

■ **MICROSOFT CERTIFIED** [microsoftCertificate](#)

Score: 925/1000 — Demonstrated expertise in core data concepts, Azure data services, and cloud databases.

EXPERIENCE

Generative AI Credit Course

May 2025 – Jun 2025

Google Developers & SmartBridge

- Mastered core LLM concepts including transformer architecture, prompt engineering, and RAG pipelines.
- Gained hands-on experience deploying AI models on Google Cloud's **Vertex AI** platform.
- Applied generative AI techniques to a real-world image captioning project (see Projects).

PROJECTS

AgriScan – Drone-Based Autonomous Crop Monitoring System [githubRepo](#)

Python · MobileNetV2 · Flask · OpenWeatherMap API · Deep Learning

- Engineered a full-stack deep learning web app detecting **57 plant diseases across 14 crops** using MobileNetV2 achieving **84.6% accuracy**.
- Integrated live weather data to forecast real-time disease risk per field, enabling preventive action before visible symptoms appear.
- Built a multi-field management dashboard allowing simultaneous monitoring and reporting across multiple farm sites.

Image Captioning Generator – Generative AI Internship Project

Python · Vertex AI · Generative AI · Prompt Engineering

- Designed and implemented an image captioning pipeline using state-of-the-art **generative AI techniques** and fine-tuning on domain-specific datasets.
- Applied advanced prompt engineering strategies to improve contextual accuracy and semantic richness of generated captions.
- Deployed the solution on Google Cloud's Vertex AI for scalable, production-ready inference.

Face Recognition Based Attendance System

Python · OpenCV · Deep Learning · CSV · Cloud Storage

- Built a robust real-time face recognition system using **OpenCV and deep learning models**, achieving reliable identification under varied conditions.
- Implemented anti-spoofing measures and adaptive algorithms for varying lighting, reducing false positives by significant margin.
- Designed automated database storage with CSV export and cloud integration for seamless institutional deployment.

TECHNICAL SKILLS

Languages:	Python · Java · C++ · SQL · HTML · CSS
AI / ML:	TensorFlow · OpenCV · MobileNetV2 · LLMs · Prompt Engineering · RAG · Fine-Tuning
Cloud & Platforms:	Google Cloud (Vertex AI) · Microsoft Azure · GitHub Actions
Developer Tools:	VS Code · Git / GitHub · LeetCode
Domains:	Computer Vision · Generative AI · Web Development · Data Analytics

LEADERSHIP & EXTRA-CURRICULAR

- **Student Coordinator – Gujarati Club & Ramanujan Mathematica Club:** Led planning and execution of multiple tech and nontech mega-events, honing project management and team leadership skills.
- **Inter-University Public Health Presentation:** Selected among top performers across university students for an interuniversity presentation on public health.
- **Published Author:** Featured in a literary anthology by *Writer's Pocket*, demonstrating strong written communication.
- **Creative Design:** Designed promotional posters for various institutional events, blending technical and creative aptitude.

Open to full-time, internship, and collaborative research opportunities
